Go Ye's Newsletter (NL) Aug - Sept 2026:
Go Ye's Mission Partners Update!
Publisher: Go Ye Ministries Liberia | www.goyeministriesliberiausa.org

Dear Prayer and Mission Partners,

Greetings in the name of our Lord and Savior Jesus Christ! We write to you with hearts full of gratitude and praise for the faithfulness of God and for your continued partnership in this mission. Your prayers, encouragement, and generous giving have made it possible for Slakpawein Village Academy (SVA) to press forward in service to the children, teachers, and communities of Liberia.

This August-September 2026 update covers a season of significant activity and milestone achievements. We are thrilled to share plans underway for the new academic year 2026/2027, the successful completion of our 2026 "Training Teachers and Transforming Communities" (TTTC) Workshop in collaboration with the Monrovia Consolidated School System (MCSS), ongoing campus development including our Safe-Drinking Water Infrastructure Project, and our active Give \$3 campaign to sustain these vital works.

We are especially grateful to recognize the faithful partnership of Christ Community Church (Sumter, SC), Beacon Hill Missionary Baptist Church, Second Baptist Church (Little Rock, AR), Rocky Knoll Church (Walhalla, SC), and The Lord's House Community Church (Norcross, GA) for their steadfast support of this ministry. Your partnership is a true blessing.

Thank you for standing with us. To God be the glory!

In His Service,
Go Ye Ministries Liberia Leadership Team

SECTION 1: SVA REOPENING & FACULTY WELCOME

Reopening of Slakpawein Village Academy (SVA)

We are grateful to announce the reopening of Slakpawein Village Academy (SVA) for the 2026/2027 academic year. After months of preparation, prayer, and partnership, our students have returned to the classroom and the energy on campus is extraordinary.

Our dedicated faculty has been welcomed back, and we are proud to have committed teachers serving our students with excellence and sacrifice. Each teacher brings not only subject knowledge, but a heart for community transformation.

CURRENT OPERATIONAL & CLASSROOM NEEDS

As SVA moves forward, the following needs remain critical to sustaining quality education for our students:

- Updated textbooks, teaching aids, and essential classroom supplies
- Consistent nutritional feeding support for enrolled students
- Classroom seating and infrastructure upgrades
- Ongoing teacher salary fulfillment

Please consider giving toward these urgent needs?

Education is the foundation of transformation. Every child who walks through SVA's doors carries the hope of a community renewed."

SECTION 2: TTTC WORKSHOP

2026 "Training Teachers & Transforming Communities" Workshop

In collaboration with the Monrovia Consolidated School System (MCSS), Go Ye Ministries Liberia hosted the 2026 "Training Teachers and Transforming Communities" (TTTC) Workshop—a landmark professional development initiative designed to equip educators across the region with practical, classroom-ready skills.

The workshop brought together teachers from 33 participating schools (including 26 schools from MCSS), engaging 140 educators in structured, module-based training sessions. Facilitators led participants through two core instructional modules: Phonics & Motivating Reading, focused on foundational literacy strategies and student engagement techniques; and Information Technology & Digital Learning, introducing educators to digital tools and technology-integrated classroom practices.

Classroom engagement throughout the workshop was exceptional. Participants demonstrated strong motivation, active note-taking, collaborative group activities, and hands-on practice in the IT & Digital Literacy Lab. The energy and commitment shown by attending teachers reflect a deep hunger for professional growth and a shared vision for transforming education in their communities.

CERTIFICATE PRESENTATION & PARTICIPANT ACHIEVEMENT

At the close of the 2026 TTTC Workshop, 109 teachers from 33 schools across Montserrado, Margibi, and Grand Bassa Counties received certificates of completion. This milestone reflects the dedication of every participant who committed their time and energy to professional growth. The certificate ceremony was a moment of celebration for the entire SVA and Go Ye Ministries Liberia community. Each awardee demonstrated mastery of core modules including Phonics & Motivating Reading to Learn and Information Technology & Digital Learning.

SECTION 3: CAMPUS DEVELOPMENT

OVERVIEW AND DETAIL OF DRILLING OPERATION

Safe-Drinking Water Infrastructure Project

One of the most urgent and life-changing capital projects currently underway at Slakpawein Village Academy is the Safe-Drinking Water Infrastructure Project. Access to clean, safe water is essential not only for the health of our SVA students but for the entire surrounding community.

Phase 1 of borehole drilling has reached 150 ft, with a final target depth of 300 ft. Once completed, this borehole will serve SVA children daily and provide safe drinking water to over 2,000 surrounding village members in Slakpawein.

The project includes installation of a solar-powered pump, a 50-ft water tower, and two water storage tanks to ensure reliable, sustainable water access year-round.

This project represents a transformational investment in both the school and the broader community. We are actively seeking mission partners to help close the funding gap and bring this critical infrastructure to completion.

Water is life. Every child at SVA deserves to learn in a safe, healthy environment. This borehole will serve our students and over 2,000 village members for generations to come."

 Learning is the thing for you! Love Liberia

TTTC & SVA Support Campaign: Give \$3!

Quality education and continuous teacher training transform entire communities. You can make a direct, immediate impact today through our Give \$3 Campaign!

How Your \$3 Helps:

Your small gift helps cover virtual technology costs, provide classroom learning tools for SVA students, and fund training infrastructure for Liberian teachers.

Goal: Expand e-learning infrastructure and cover immediate classroom supplies.

Cover monthly operational costs for SVA teacher salaries (\$3,500/mo), classroom seating infrastructure (\$3,600 target), nutritional feeding (\$1,000/mo), and the Safe-Water Capital Project (\$18,920 total).
